Objective

As a beginner in the field of Information Technology, I strive to associate myself with an organization where I can utilize my skills in the best possible manner, which further gives me an opportunity to grow in my career journey while contributing to the development of the organization.

Education

- **Sri Vasavi Engineering College**   2023
  B-Tech, Computer Science And Engineering
  8.54 CGPA

- **Elite Junior College**   2019
  Intermediate
  7.53 CGPA

- **Bharatiya Vidya Bhavan's**   2017
  10th Class
  9.6 CGPA

Skills

- Java Programming
- C, C ++ Programming
- Python Programming
- Database : SQL
- Android App Development (Basic)
- Web development
- PHP (Basic)
- Javascript (Basic)

Projects

- **Learning Management System (LMS)**
  A Learning Management System (LMS) named GETCLEARED is a Full Stack Website to discuss academic related problems between faculty and students.

- **An IOT Based Door lock security using face recognition**
  A door lock security system that is developing for providing a better security for the individual personal space. It makes use of an android Application to collect images and store in cloud, then the images of authorised users will be fetched by using the micro computer placed at the location and gets trained by it self. We can also manually overwrite the automatic unlock and lock system if in case the automatic lock system failed to unlock/lock.

- **Online Quiz Platform**
  A dynamic web-based platform where we can conduct quiz competition among students.

- **Browser based Android App**
  Browser based Android App CSE THOPZZ where the students can access academic information they required.

- **ELITE SAT**
  A mini satellite model which can detect the greenhouse gases in atmosphere.
